

# Esferra & Bell Series

August Collection 2017

Hatsu is a design studio based in Mumbai that creates modern lighting that are unique and immediately recognizable. We started with an idea to make good design available to people and design products that are electric, romantic and minimal. We want to be progressive with our design in such a way that influence the users lives. There are three responses to a piece of design - yes, no and WOW! Our aim is WOW
