oiled & waxed brass

039 05 208

bronze

039 05 209

black matte

039 05 402

aged brass

* On very rare occasions, these lamps may appear to have a slight buzzing or flickering. As is the case with all LED lamps, this is likely caused by a number of outside influences such as incorrect installation, wiring, dimming or transformers and in some instances low electrical resistance.

** Please contact sales@kaiaeditions.com for further information on dimmers etc. Please note KAIA Ltd cannot take any responsibility for the connection with your dimming or central control system. It is the customer's responsibility to ensure the compatibility with their systems.

NEA REVERSE

30
